Dear all,

Good morning. I trust you are fine!

Just a short message to wish you and your loved ones a great Sunday. It has been a week since we had no option but to close down all operations and now more than a month since we started updating you re COVID-19 preparations.

Most probably at the time of our first communication on the 26<sup>th</sup> February 2020 many thought that it was premature so start thinking about this global threat however with hindsight now I realize that together with the help of all of you we managed to prepare ourselves well and we are now in a much better position to look forward to the future.

### **THE FUTURE**

Although the future is very uncertain as the everyday developments are changing the outlook for the coming months constantly , I am confident that Malta through the very capable directions given by the Health Authorities will manage to overcome the threat and move on.

The reality is the that most probably once we restart we will be living in a very different world, with an economy which will have its challenges and the social economic consequences very evident around us. It is for this reason that from now we need to start preparing ourselves by thinking of new ways of how we can work harder, more efficiently and most importantly think about ideas of how we can create new business.

It is for this reason that I kindly ask you to think as though ROCS was your company – What would you do to create business during such difficult times and after this threat is over?

I urge you to send all suggestions on [covid19@rocsgrp.com](mailto:covid19@rocsgrp.com)

### **A REMINDER**

Since we don't know how long this threat will last and we are unaware of when we will be able to kick start operations I urge all of you to be very careful with your finances. I kindly remind you not to transfer any funds abroad as this situation might take longer than expected. I urge you not to spend money on unnecessary items. When buying anything please ask yourself – Will I manage through this time without this item? Think of the worse scenario rather than the very positive one.

### **CONCLUSION**

As always latest updates will be posted on the website [www.rocsclimbers.com/covid19](http://www.rocsclimbers.com/covid19)

Good day, take care of yourself, your friends and your families.

**Social distancing should be your number one priority.**

#STAYSAFE #STAYHOME

Colin
